EXPERIENCE

Dhee Coding Lab | Java Full Stack Trainee

Bengaluru | Feb 2026 - Present

- Undergoing intensive, project-based training in Java, Spring Boot, REST APIs, and SQL.
- Applying concepts through real-world style projects to build production-ready full-stack development practices.

SKILLS

Programming Languages: Java, HTML, CSS, SQL, JavaScript
Libraries/Frameworks: Spring Boot, Hibernate, Servlets, JDBC, REST APIs
Tools / Platforms: Git, GitHub, Eclipse, VS Code
Databases: MySQL
Core CS: Data Structures & Algorithms

PROJECTS / OPEN-SOURCE

Hospital Management System

Java, Servlets, JSP, JDBC, MySQL, HTML, CSS

Developed a web-based Hospital Management System to manage patients, doctors, appointments using Java Full Stack technologies. Implemented database connectivity using JDBC and MySQL with CRUD operations to ensure efficient hospital record management.

Soft Tissue Tumor Detection Using GM-UNET

Python, Flask, HTML, CSS

Built a deep learning-based medical image analysis system using a GM-UNet architecture to detect and segment soft tissue tumors from scan images, with a Flask-based web interface for uploading scans and visualizing real-time predictions and tumor regions.

Open Source Job Portal

HTML, CSS, TypeScript, Supabase

Built a full-stack job portal application using HTML, CSS, TypeScript, and Supabase, enabling role-based authentication, job posting, application tracking, and seamless database integration.

CERTIFICATIONS

- Full Stack Web Development - **Intrnforte**

HONORS & AWARDS

- Earned the 50 Days Badge on LeetCode for consistent problem solving and coding practice in Data Structures & Algorithms.
